

BV Electric Ltd.

ENVIRONMENTAL POLICY

BV Electric Ltd. recognizes the importance of respecting the natural environment and the human health of our employees and sites. Our policy embodies the importance of environmental sustainability and respects the health of humans, animals, plant life, air, water, soil and all aspects of the environment

The following outlines BV Electric's responsibility to adhere and implement our environmental policy.

- Recognize environmental management as an important company priority by establishing policies, programs and practices for conducting business.
- Integrate and promote full compliance with our environmental policies, guidelines, standards and regulations.
- All personnel will adhere to the company environmental policy and procedures so as to minimise the impact on the environment
- The BV Electric Ltd. Health, Safety and Environment program contains practices, procedures, rules, and standards that are applied to help prevent impacts to the environment.
- All work will be performed in a manner that gives consideration to all aspects of our environment.
- Ensure that everyone has a responsibility to comply with Provincial and Federal Environmental Legislation.
- Monitor the performance of environmental programs and management systems to ensure compliance with our policy and regulatory requirements.
- Strive for continual improvement through an ongoing program of review of environmental performance, taking into account technical and economic development and scientific understanding of environmental effects of operations.
- Develop and maintain emergency preparedness plans to ensure protection of the environment, workers and the public.
- Encourage dialogue on environmental issues with employees and the public and be responsive to concerns.

Our environmental policy applies to all of our operations and work sites. Ensuring that our management, employees, supervisors, clients and sub-contractors follow this is a shared responsibility. Everyone must be committed to adhering to our policy in order to minimize impacts and respect our environments.
